

## **OPTins 5.15 Release Notes**

OPTins 5.15 was released to production on Thursday, July 28, 2022. Historical release notes are now available to all users within the Help section, and the filing view for ACH Credit payments has been updated for clarity. Vendors are able to submit Surplus Lines filings via web service with this release.

Additional Payments shown on the State EFT Report will now display the correct state received date, and an issue regarding paper checks on electronic submissions has been fixed. An error allowing incorrect form submission has been resolved; users with the standalone role of Industry EFT Report Reviewer are now able to navigate to any account they have access to.
