

## **OPTins 5.14 Release Notes**

OPTins 5.14 was released to production on Thursday, May 19, 2022. For state users this release contains a minor update to the Payment Report, as well as a clear differentiation between state-entered checks and state-entered transactions. A defect has been resolved regarding complete export – no transformation for state users.

This release also includes an update to the industry EFT Report regarding ACH Debit Delayed Submission payments. Now in the 'Pending' section of the report, users will note both the Date Submitted and Expected Release Date are shown.
