# OPT*ins* 5.10 Release Notes

OPT*ins* 5.10 was released to production on Thursday, May 13, 2021. The release contains bug fixes for state users regarding ACH Debit Delayed Submission filings and filing totals, and minor bug fixes for industry users.

Users with the Filing Entity Administrator role will note they no longer need to click 'Search' when viewing an account that has more than 20 entities associated. Filing Entity Administrators will also notice additional validation against entity identifiers and new contextual help when license numbers are added to an entity.
