

## **OPTins 5.17 Release Notes**

OPTins 5.17 was released to production on Thursday, October 27<sup>th</sup>, 2022.

This release contains updates to the Legacy Application for the following:

1. Ability for a user to sort filings by Date Submitted and Filing Period.
2. Ability to sort Entity names in alphabetical order regardless of case sensitivity
3. Ability for a user to update his/her email address

This release also contains a fix for a defect within the Legacy Application that was not displaying the appropriate message when a user added a state license to an entity.
